## Standard Wood Crates

All wood materials used in the construction of this packaging meet ISPM 15 regulations:

- All solid wood has been heat treated to a core temperature of 132°F (56°C) for a minimum of 30 minutes.
- All wooden panel components have been manufactured from Canadian or European plywood and are considered an engineered material exempt from regulation, according to ISPM 15.

Please contact Uline Customer Service at 1-800-295-5510 with any additional questions.
